9. THE MANDYLION - The Mandylion, or “Image made without human hands”, is also known as the Image of Edessa. According to Christian tradition, the Image of Edessa was a holy relic consisting of a rectangle of cloth upon which a miraculous image of the face of Jesus had been imprinted—the first icon (“image”). Thus began the tradition of iconography. This Icon, like all true icons, was not painted, but rather, *written* in prayer with elements from creation - tempura, ground stones and minerals, and real gold. What makes *this* icon extra special is that it was written by our dear friend, Theresa Rohter.
